

NUT-BASED PRODUCTS IN WAGGA WAGGA

The Wagga Wagga Special Activation Precinct will be a sustainable hub of high value production and manufacturing connecting Australia's richest food and agricultural region with the world.

The precinct will be
one of Australia's first
UNIDO Eco-Industrial Parks

\$301m

Australian soy and
almond milk market

1,300

hectares of land
within the precinct
zoned for industrial use
with rail siding

48%

of NSW's fruit and
nuts grown in the
Riverina region

Why Wagga Wagga for nut-based products?

Efficient,
renewable utilities

Market access
and connections

Established
agricultural sector

Strong education
and R&D sector

Why Wagga Wagga for nut-based products?

Efficient, renewable utilities

The Wagga Wagga precinct will be supported by efficient, renewable energy, gas and water supply networks, each with spare capacity to support growth. The precinct aims to achieve 100% renewable energy through solar and biomass generation.

Market access and connections

Wagga Wagga is NSW's southern gateway and offers easy access to domestic and export markets. Positioned on the Inland Rail, the precinct will house the Riverina Intermodal Freight & Logistics Hub, with access to international ports and 75% of Australia's population overnight.

Established agricultural sector

Wagga Wagga is a regional agri-processing centre with a workforce of 37,000. The precinct will provide manufacturers a commercial gateway to Australia's richest food growing region. The surrounding region currently produces 48% of NSW's fruit and nuts.

Strong education and R&D sector

The precinct will offer opportunities for collaboration and R&D with local and partner institutions including Charles Sturt University's AgriPark. CSU's local education and research campus is world-class and offers programs in agriculture and innovation. Federal research and development corporation AgriFutures Australia, also based in Wagga Wagga, offers research and collaboration support related to emerging agricultural industries and issues.

Be part of our Special Activation Precinct

When you set up in one of NSW's Special Activation Precincts you benefit from government support which saves you time and money.

We also connect you with like-minded businesses to improve supply chains and achieve cost-savings through an active circular economy.
